STATINTL

1. The following comments are submitted in response to  
reference (a) and in confirmation of reference (b).

a. Two reference publications are used within the intel-  
ligence community for the preparation and submission of the  
FPCS, the subject USIB publication and the IDHS Management  
System Manual, DIAM 65-8-1 of 15 Oct 1966. It is recommended  
that the IDHS Manual be included as an additional reference  
to the evaluation form and the differences between the manuals  
be reconciled for the purposes of this report.

b. Refer Catalog Evaluation section (IA). Clarification  
of item IA1a is needed with respect to the handling of deletions.  
It is recommended that a subset of this entry be included  
requesting the number of deletions submitted to the File  
Catalog.
